PROFESSIONAL SUMMARY

Results-driven IT & Ecommerce Executive with 2.9+ years of progressive experience delivering end-to-end digital operations, IT support, and quick commerce platform management within a high-velocity retail environment. Demonstrated expertise in Swiggy and Zomato operations, product catalog management, inventory control, store onboarding, and customer issue resolution. Proven ability to coordinate across multiple store locations, manage vendor and platform escalations, and drive process improvements that reduce downtime and enhance order fulfillment efficiency. Proficient in AI-powered tools, Google Workspace, and Microsoft Office Suite. Currently pursuing a Bachelor of Computer Applications (BCA) from IGNOU, continuously applying technical knowledge to drive measurable business outcomes.

CORE COMPETENCIES

IT Support • Technical Troubleshooting • Inventory Management • Product Catalog Management • User Management
Vendor Coordination • CRM • Swiggy Operations • Zomato Operations • Order Management • Excel Reporting
Process Optimization • Data Analysis • Customer Support • Google Workspace • Microsoft Office • AI Tools

PROFESSIONAL EXPERIENCE

IT & Ecommerce Executive

Jun 2024 – Present

New Shop | New Delhi, India

- Oversaw end-to-end onboarding of new retail store locations onto Swiggy, Zomato, Magicpin, and ONDC platforms, ensuring accurate setup of menus, pricing, operating hours, and geo-tagging to achieve go-live timelines.
- Administered user accounts and access permissions across internal platforms and e-commerce portals, managing role assignments and resolving login issues to maintain operational continuity for 10+ store locations.
- Resolved inventory and GRN discrepancies in real time by coordinating with warehouse, store managers, and vendors, reducing stock mismatch incidents and preventing order cancellation due to availability errors.
- Managed Swiggy and Zomato operations including menu updates, item availability toggles, pricing corrections, and platform-level troubleshooting, maintaining a consistent in-stock rate and minimizing listing downtime.
- Executed high-volume product catalog updates — adding new SKUs, updating images, editing descriptions, and correcting pricing — across multiple quick commerce platforms to improve product discoverability and conversion.
- Coordinated with vendors and brand executives on stock replenishment, promotional activations, and catalogue alignment, ensuring accurate product representation across all digital storefronts.
- Served as first-line technical support for in-office hardware, software, and connectivity issues, reducing average resolution time through prompt escalation and structured follow-through.
- Resolved customer-facing complaints and order issues escalated from platform support teams, maintaining high satisfaction scores and reducing repeat escalations through root-cause resolution.
- Generated daily and weekly operational reports in Microsoft Excel covering order volumes, platform performance, inventory status, and issue resolution metrics to support management decision-making.
- Leveraged AI-powered tools and Canva for visual content creation, supporting digital marketing and product presentation initiatives across quick commerce channels.

New Shop | New Delhi, India

- Provided frontline technical support for hardware, peripheral, and software issues across in-office systems, ensuring minimal disruption to daily operations through rapid diagnosis and resolution.
- Assisted in inventory operations including stock verification, GRN entry, and coordination with warehouse teams to maintain accurate records and support uninterrupted order fulfillment.
- Supported product catalog management by uploading new listings, updating existing product data, and verifying accuracy of pricing and availability information on e-commerce platforms.
- Handled customer support queries escalated from store teams, logging issues, coordinating resolutions, and maintaining detailed records of recurring complaints to inform process improvements.
- Maintained and organized digital records and data files using Google Workspace and Microsoft Office Suite, improving team accessibility to operational data and documentation.
- Assisted in the preparation and scheduling of promotional content and digital assets using AI-based tools and CapCut, contributing to brand visibility across quick commerce platforms.

KEY ACHIEVEMENTS

- **Multi-Platform Onboarding:** Successfully onboarded and configured multiple retail store locations across Swiggy, Zomato, Magicpin, ONDC, and the New Shop App, ensuring accurate digital storefronts and on-time go-live execution.
- **Catalog Accuracy & Uptime:** Maintained near-zero listing errors across 200+ active SKUs by implementing a systematic review process for product data, pricing, and availability — directly contributing to improved order conversion rates.
- **Incident Resolution Efficiency:** Reduced average IT incident resolution time by establishing a structured escalation and follow-through framework, minimizing downtime for in-store operations.
- **Inventory Discrepancy Reduction:** Partnered with warehouse and store teams to identify recurring GRN mismatch patterns, implementing corrective workflows that significantly reduced stock discrepancy incidents.
- **Cross-Functional Coordination:** Served as the operational bridge between store managers, brand executives, vendors, and platform support teams — streamlining communication and reducing resolution cycles for multi-party issues.
- **AI Tool Adoption:** Pioneered the use of AI-powered content and design tools within the operations team, reducing manual effort in product presentation and marketing asset creation.
